

Malaysia s solar photovoltaic modules

Overview

In 2022, Malaysia was the world's third largest manufacturer of photovoltaics, also known as PV modules, contributing 2.8% to the global output. This ranking placed Malaysia behind both China, which dominated the market with a significant 77.8% share, and Vietnam, which accounted for 6.4% of the world's.

In 2022, Malaysia's role in the global photovoltaic (PV) market was marked by significant export figures. Data from the .

Malaysia is a major hub for solar equipment manufacturing, with factories of companies like , , TS Solartech, Jinko.
