

# **Mauritania Solar Power Generation Home Franchise**

## Overview

---

What is the future of solar energy in Mauritania?

The future of solar energy in Mauritania is bright, and the country is well on its way to becoming a leader in renewable energy production. With ongoing solar energy projects and Green Hydrogen Projects, residents can look forward to a cleaner, more sustainable energy future.

Can Mauritania produce solar and wind energy?

Estimates for solar energy and wind energy production in Mauritania vary, but all recent studies agree that Mauritania has enormous potential for both solar and wind energy because of its unique geography.

What is Mauritanian solar energy?

This 50 MW solar energy plant, funded by both the Mauritanian government and the Arabic Fund for Economic and Social Development with a \$53 million investment, is made up of 540 panels and a 33-kVA transformation station. The plant not only expands access to electricity in the country, but also promotes the use of clean, green energy.

How many solar panels does Mauritania produce a year?

The facility is responsible for 10% of Mauritania's grid capacity. It generates 25,409 megawatt-hours of renewable electricity per year and displaces approximately 21,225 tons of CO<sub>2</sub>. The plant's almost 30,000 solar panels, manufactured by Masdar PV, provide electricity to more than 10,000 houses in Nouakchott.

How much electricity does Mauritania produce?

Mauritania produces over 5% of its electricity through solar energy, generating more than 75 megawatts of electricity annually. This is a testament to the government's commitment to utilizing renewable energy sources and reducing its carbon footprint.

Is Mauritania ready for the largest green hydrogen production project in the world?

Driven by this momentum, the country has signed a memorandum of understanding for the implementation of the largest green hydrogen production project in the world, which Mauritania intends to develop in partnership with CWP Global, an Australian renewable energy development company led by an American founder and CEO.

## Mauritania Solar Power Generation Home Franchise
