

Medium outdoor power supply brand ranking

Overview

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

Which power station should I buy?

The Jackery 2000 Plus is the best power station for those who need ample power. While it is pricey at over \$2,000 list price, it has plenty of power, charges impressively fast, and won't let you down in case of an emergency. If your main need is charging devices like phones and laptops, our favorite is the Anker 521.

What should I look for in a power supply?

You'll want a unit that can power a wide range of devices, from your laptop and phone to larger appliances like refrigerators and coffee makers. This adaptability makes them perfect for camping trips, road adventures, or home backup during outages. Look for models with multiple output options, including AC, USB-A, USB-C, and DC ports.

Which power supplies are best for off-the-grid power?

1. EcoFlow Delta 3 Plus EcoFlow power supplies have long been a favorite of ours, and after extensive tests, the Delta 3 Plus proved an insight into the next generation of off-the-grid power. Specs-wise, you're looking at 1024Wh battery capacity, 2400W output, and a great port selection.

Should you buy a power brick or a portable power station?

Small power bricks have enough juice to charge your phone a few times, while a cooler-sized portable power station can keep vital electronics running during

a power outage or camping trip, and the most powerful options will provide electricity to your entire house.

Is a 3000W power supply a good choice?

Specs-wise, it's well-equipped for power back-up, with a 3000W continuous power output, and also includes a Uninterruptable Power Supply features, which is essential for units of this size. There are improvements we'd make here and there, including a not particularly good app and AC port placement to the front.
