

# **Mozambique BYD Hybrid Energy Storage Power Station**

## Overview

---

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

Should Mozambique export electricity?

One of the big challenges of Mozambique is its size and shape, which make the transportation of electrons across the country quite expensive. Exporting electricity would bring foreign currency that can support investments in domestic transmission and distribution infrastructure.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

## Mozambique BYD Hybrid Energy Storage Power Station

### [BATTERY BASED ENERGY STORAGE SYSTEM ...](#)

This initiative aims to support decentralized utility solar photovoltaic (PV) and battery energy storage system (BESS) projects, to be implemented by Independent Power Producers (IPP) ...

[Email Contact](#)

### [Mozambique Advances with Hybrid Power Plan](#)

Mozambique's Balama Graphite Mine, operated by Australia-based Syrah Resources, is set to redefine sustainable mining with a new hybrid power system. The project, ...

### [ENERGY STORAGE PROJECT BREAKS GROUND IN MOZAMBIQUE](#)

Mozambique energy storage battery project  
Mozambique's Ministry of Mineral Resources and Energy has kicked off a tender for the development of decentralized solar and battery storage ...

[Email Contact](#)

#### Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 1200W Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 10A, Compatible with High Power Modules

#### Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

#### Flexible Abundant Configuration

- Plug & Play, UPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 8 Units Inverter Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

### [Solar battery hybrid system for Mozambique mine now operational](#)

A Mozambican mine has achieved full operation of its solar PV plus battery energy storage hybrid system. The entire solar PV array of 20,832 solar modules with a surface area ...
