## Overview

---

What type of power outlet does Namibia use?

Namibia uses power outlets and plugs of types D & M. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Be careful!.

Why is a power supply system necessary in Namibia?

A power supply system is necessary in Namibia to source power supplies for Namibian consumers in the most cost-effective manner, including the optimum utilisation of local generating assets; ensure a reliable supply of power that promotes Namibian growth and development; and increase diversity of supply and promote the use of local energy resources.

Where does NamPower supply bulk electricity?

NamPower supplies bulk electricity to Regional Electricity Distributors (REDs), Mines, Farms and Local Authorities (where REDs are not operational) throughout Namibia.

What does NamPower do?

NamPower's core business is the generation, transmission and energy trading, which takes place within the Southern African Power Pool (SAPP), the largest multilateral energy platform on the African continent.

Why should you choose NamPower?

NamPower understands the important role that electricity plays in all aspects of socio-economic development – not just in driving the machines and equipment that keep Namibia's factories, mines and farms going, but also in

powering our schools, our offices, and our very lives. To be the leading electricity solutions provider of choice in SADC.
