

New Zealand 60v lithium battery pack factory

Overview

Where can I buy a lithium battery in New Zealand?

Cell-Supply NZ is the leading lithium battery store in New Zealand, offering a wide range of genuine, brand-name, high-quality lithium batteries. Batteries like the 18350, 18650, and 21700, are all part of our varied range. We take pride in offering the most up-to-date and newest supplies of both cells and chargers.

How do I order a battery in New Zealand?

Order your battery from your desk and it will be delivered to your door - free to main centres in New Zealand. Be in complete control of the ordering process while you're 'one on one' with a battery specialist. Pay by Credit Card, Cheque or internet banking - your choice.

What is the maximum capacity of a lithium battery?

Currently, the most powerful 18650 batteries are about 3500mAh in capacity or 35A in amps, you cannot have maximum capacity and output it is always a trade-off. 21700 cells with their larger size can offer a capacity of 5000mAh or an output of 45A. New to Lithium Batteries?

We are located in Tauranga.

Are lithium iron phosphate batteries safe?

Lithium Iron Phosphate batteries are safer and more stable compared to other lithium technologies as their cells provide superior thermal and chemical stability. Their wide operating temperature range also ensures lithium batteries deliver reliable power every time, making it the perfect adventuring companion for RVs, motorhomes and caravans.
