

New Zealand mobile power station manufacturer

Overview

Power Station is a manufacturer of relocatable, self-contained off-grid solar systems for all types of uses around the country. Our mission is to improve the lives of off-grid families and businesses in New Zealand by providing high-quality, cost effective solar power solutions that you can trust. What are the best portable power stations in New Zealand?

Grid Escape's ATB & Pecron Portable Power Stations range are designed to withstand New Zealand's harsh elements. These compact yet robust units are perfect for any scenario, whether exploring the great outdoors, powering through work at a remote construction site, or staying prepared during an unexpected power outage.

Why should I buy a portable power station?

If you're going camping, off the grid or preparing for an emergency, our portable power station provides enough power to keep your appliances or devices operating.

What is the best portable power station?

Jackery Explorer 500 Portable Power Station, featuring a 518Wh battery and a pure sine wave inverter, is the most portable and lightest power station available. With an MPPT charge controller, lightweight design, and compact size, the power station is ideal for charging home appliances like electric blankets, blenders, mini coolers, etc.
