

# Nordic s largest energy storage battery

Energy storage(KWH)

**102.4kWh**

Nominal voltage(Vdc)

**512V**

---

Outdoor All-in-one ESS cabinet

## Overview

---

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. What is the largest energy storage investment in the Nordics?

It is a great honor to inaugurate the largest energy storage investment in the Nordics, with 211 MW now connected to the power grid. Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling increased power production.

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

What is the largest battery in the Nordics?

Isbillen Power Reserve will be the largest battery in the Nordics. The 93.9 MW / 93.9 MWh lithium-ion battery will be located in the county of Västernorrland, approximately 100 km from Östersund and 6 km from Neoen's other Swedish battery, Støren Power Reserve (52 MW / 52 MWh), the construction of which is nearly completed.

What is the largest battery energy storage project in the Nordics?

Bookmark the permalink. (IN BRIEF) SEB Nordic Energy's portfolio company Locus Energy, in partnership with Ingrid Capacity, is launching the largest battery energy storage project in the Nordics. The project, which will add 70 MW/140 MWh of storage to its Finnish renewable assets, is set for completion in 2026 in Nivala Municipality, Ostrobothnia.

What is the largest energy storage park in the Nordic region?

Romina Pourmokhtari, Sweden's Minister for Climate and Environment, officially inaugurated the largest energy storage park in the Nordic region. The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh.

What is the largest energy capacity in the Nordics?

The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building. It has a capacity of 112.9MWh, and that is also set to come online at the start of 2025.
