

Oman has a communication base station EMS

Overview

What is EMS in Oman?

The Emergency Medical Services (EMS) in Oman is a relatively new project in the country. It has been developed based on the Anglo-American system of EMS. Currently, it is run by trained Omani Advanced Emergency Medical Technicians (AEMT) under the auspices of the Royal Oman Police (ROP) Ambulance Division. EMS in the Sultanate of Oman.

What is the emergency number in Oman?

In Oman, there is a nationwide free-toll emergency number which is 9999. This number is connected to a central answering point which is for all calls requiring public safety resources (such as civil defence, police and EMS). Once a call has been received the dispatcher will direct the service that is appropriate to attend the event.

Are ambulance personnel trained in Oman?

Yes, personnel staffing the ambulance in Oman are trained to an advanced emergency medicine technician (AEMT) level. (Khalfia 2009) Completed general science secondary school certificate with 70% or above grade. Physically and medically fit. First period: 6 months, covers basic police sciences and police training.
