

Outdoor Power North America

Overview

The North America outdoor power equipment industry accounted for 35.28% of the global overall market share in 2024. The regional market's growth is attributed to North America's larger geographical area compared to its population, which leads to more gardens and lawns in the region.

The global outdoor power equipment market size was USD 46.53 billion in 2021 and is expected to reach USD 76.61 billion by 2030, expanding.

The end-use segment has been segregated into the commercial and residential sectors. The residential segment accounted for more than 49.37% market share.

The power source segment has been segregated into gasoline, battery, and electric corded. The gasoline segment accounted for 56.8%.

The equipment segment has been segregated into a lawn mower, chainsaw, trimmer & edger, blowers, tiller & cultivators, snow.

The North America outdoor power equipment market size reached USD 13.64 billion in 2024. The efficiency, maintenance, and usability of outdoor power equipment are being improved by the integration of cutting-edge technologies like IoT and AI.
