

Outdoor power supply continuous power

Overview

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

What is an outdoor DC UPS backup power?

An Outdoor DC UPS Backup Power is the perfect solution for continuous power, day or night for surveillance cameras and wireless equipment. Get up to 10 days of backup power. [Click to Download UPS Spec Sheet.](#)

What is an outdoor UPS system?

Outdoor UPS system for areas with dust, debris, and temperature swings. Keeps power consistently stable in all critical industrial operations.

What is the Solis Energy continuous power bridge (CPB)?

The Solis Energy Continuous Power Bridge (CPB) is a device that keeps your devices running when your gang-switched power supply, such as a light pole, is turned off and not receiving grid power. It is rugged and reliable, designed for applications where power outages are planned and intermittent.

What are the benefits of a self-contained power system?

Completely Self Contained – Batteries, PoE injectors and converters, charging and other equipment is protected from the elements and tampering. Provides at least 24 hours and up to 10 days of backup power when grid-tied power goes out. Provides power to equipment on light poles when automatically turned off by a timer or photocell.

What is a outdoor industrial UPS?

Outdoor Industrial UPS for Harsh Environments is a growing category of UPS systems that are built to withstand the stresses of an industrial environment. With floor space in data centers and other climate-controlled areas at a premium, more UPS systems are operating in harsh environments that can include vibration, dust, and liquid splatter.

Outdoor power supply continuous power

Outdoor DC UPS Backup Power

An Outdoor DC UPS Backup Power is the perfect solution for continuous power, day or night for surveillance cameras and wireless equipment. Get up to 10 days of backup power.
