Overview

What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

Does Palau rely on fossil fuels?

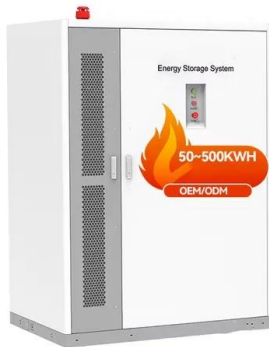

As a small island developing state, the Republic of Palau sought to wean itself off its dependence on fossil fuel for power, which accounts for 99.7% of the country's power generation. To address this issue, Palau invited Solar Pacific Energy Corporation (SPEC), Alternergy's solar developer, to develop a clean, renewable energy source.

Can I use my power plugs in Palau?

In Palau, power plugs and sockets (outlets) of types A and B are used. For more information on compatibility with your specific power plugs, select your country of residence at the top of the page. The standard voltage is 120 V at a frequency of 60 Hz. We don't sell power plug adapters.
