

Papua New Guinea rooftop photovoltaic panel project

Overview

UNDP has brought renewable energy to the heart of Bougainville by installing solar panels on the roof of the Innovation Hub in Buka, unlocking new opportunities for the people in the community, especially for women and youth.

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 100% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Utilizing
- Max. PV Input Current 15A, Compatible with High-Power Modules

Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnostic Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPC Switching Under 10min
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation
