

Photovoltaic module import and export

Overview

Is India a net importer or exporter of photovoltaic (PV) products?

India is making significant progress in transitioning from a net importer to a net exporter of photovoltaic (PV) products. In Fiscal Year (FY) 2024, Indian PV manufacturers exported approximately US\$2 billion worth of PV modules. The export value of PV modules from India increased by more than 23 times in just two years between FY2022 and FY2024.

What are solar PV module shipments?

Solar PV module shipments include imports, exports, and modules produced and sold domestically, but they exclude modules shipped for resale. These shipments have steadily increased since 2006, driven by significant price declines and policy incentives that encourage solar PV installation.

Does India export photovoltaic modules?

The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which accounted for more than 97% of India's exports in both FY2023 and FY2024.

How to import photovoltaic panels?

If you want to import photovoltaic panels, you should have at least basic parameters of the goods specified. Based on your requirements, the supplier will be able to suggest you the most suitable product. The country that ranked first in the production of photovoltaic panels in the world is China.

Are photovoltaic module shipments published?

U.S. photovoltaic module shipments by state or territory Individual data for most states are not published to protect the confidentiality of individual company data. Individual data for most states are not published to protect the confidentiality of individual company data.

Do I need to report a monthly photovoltaic module shipment report?

Beginning in January 2017, we required some of the respondents for the annual survey Form EIA-63B, Photovoltaic Module Shipments Report, to report monthly data. The subset of respondents now must report monthly accounts for about 90% of photovoltaic (PV) activity in the United States, based on 2021 data.

Photovoltaic module import and export

Monthly Solar Photovoltaic Module Shipments Report

This table includes the total shipments, values, and average values of module shipments by year and month. This table is a compilation of annual Tables 2, 3, and 4.
