

Photovoltaic panel custom manufacturer

Overview

How much does it cost to design a custom solar panel?

There are no design fees to create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending on the size of the panel.

Are solar panels a sustainable solution for commercial trucking?

Solar power is emerging as a transformative solution, offering a sustainable way to address these challenges across various systems within a truck. This blog overviews five key areas where solar panels make a tangible impact—offering savings, reliability, and efficiency. What's The Return on Investment for a Commercial Trucking Solar Solution?

.

Who is fly Solartech?

FLY Solartech is a European manufacturer based in Italy with exclusive production possibilities of customized solar panel. Having a flexible production line: we offer the design and development of custom and unique solar solutions, which require a personal touch and a unique approach.

How much power does a monocrystalline solar panel produce?

The more cell area, the more power is produced. For example, this monocrystalline panel on the left has 118 cm² of cell area (12 52mm x 19mm pieces) using 19.1% efficient cells and is rated for 2.3 Watts. The SunPower panel on the right has 129 cm of cell area (18 50mm x 14.4mm pieces) using 23.1% efficient cells and is rated for 3.0 Watts.

Can I create a custom panel mount?

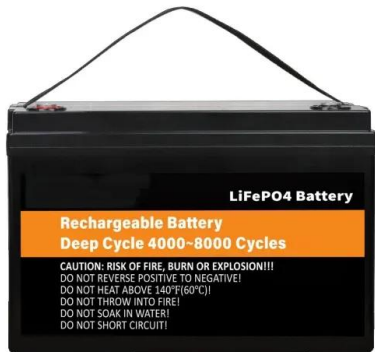

In addition to customizing the embedded screws or adding through holes, we

offer the ability to create a custom panel mount for your specifications. This includes the design and manufacture of custom brackets, gaskets or VHB seals. Our standard wire has strain relief is about 12 inches long and terminates in a 3.5x1.1mm plug.
