

# **Photovoltaic panels 500 watt batteries**

## Overview

---

With a 500 watt solar system, an AGM battery should be sufficient. A lithium battery will work, but there is nothing you won't be able to power than an AGM cannot.

## Photovoltaic panels 500 watt batteries

---

[What size battery do I need for 500 watt solar panel?](#)

Battery capacity You will need to select a battery large enough to store the power generated by the solar panels during the day and provide nighttime use when needed. ...
