

Photovoltaic solar panel prices in Iraq

Overview

Prices for solar panel systems range from \$1,500 to \$8,000, with smaller home systems starting around \$2,500 and larger setups exceeding \$6,000. Government-backed loans and low maintenance make solar energy an affordable and sustainable option for many Iraqis. How much solar power does Iraq have?

According to the International Renewable Energy Agency, Iraq has an installed PV capacity of only 216 MW despite a huge solar potential. No additional solar power has been deployed in the country in the past three years.

How much does electricity cost in Iraq?

As of March 2024, the average cost of electricity from utility companies in Iraq (including power, distribution and transmission costs as well as taxes) is \$0.015 per kWh for residential consumers and \$0.046 per kWh for businesses.

Are solar panels & inverters safe & reliable?

Our solar panels and inverters are safe and reliable, allowing you to take control of your power production. With our extensive experience in the solar industry, we guarantee the highest quality products and services. Switching to renewable energy not only benefits the environment, but also your wallet.
