

Poland 720MWh energy storage project bids open

Overview

What is Poland's energy storage program?

The program , “Electricity storage facilities and infrastructure for improving the stability of the Polish power grid,” is aimed at companies planning to invest in energy storage facilities with a capacity of at least 2 MW and a minimum capacity of 4 MWh.

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year’s main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

What is Poland's energy storage subsidy program?

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to support the deployment of more than 5 GWh of energy storage in the country. The new regulation was published in the Journal of Laws of the Republic of Poland on March 7.
