World's largest pumped storage power plant fully operational in ...

The Fengning Pumped Storage Power Station, the world's largest facility of its kind, has commenced full operations with the commissioning of its final variable-speed unit on ...

[Email Contact](#)

Operation strategy and capacity configuration of digital renewable

The rapid development of renewable energy sources, represented by photovoltaic generation, provides a solution to environmental issues. However, the intermittency of ...

[Email Contact](#)

Research on the operation strategy of energy storage power station

With the development of the new situation of traditional energy and environmental protection, the power system is undergoing an unprecedented transformation[1]. A large number of ...
