

Power generation container house design company

Overview

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Why do you need a containerized generator enclosure?

Our containerized generator enclosures offer unparalleled flexibility, durability, and convenience, making them the ideal choice for various industries and applications. Read on to discover why BMarko Structures is your go-to partner for all your containerized generator enclosure needs. Fill Out Our Contact Form Below To Get Started!.

What is a multi-container custom home?

By customer demand, what started as primarily single-unit container homes has quickly grown to multi-container custom homes. Using a combination of stacked or adjoined 20ft and 40ft containers, we will create your dream home with features like full-sized kitchens, multiple bedrooms, and spacious living areas.

Do you offer pre-engineered shipping container home designs?

We offer a range of pre-engineered shipping container home designs and configurations that are ready-to-build and meet typical building codes and standards. However, we understand that every client has unique needs and preferences, which is why we also offer a custom design and engineering experience.

What is a container home?

Each container home is built to meet the highest industry standards, from

expandable homes to modular commercial spaces. Whether you're looking to create a unique living space, a functional office, or a mobile worksite solution, our skilled team and advanced technology are here to make your vision a reality.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.
