

Price of monocrystalline photovoltaic panels in Ireland

Overview

Solar PV panel costs range between €4,600 – €8,700 in Ireland. This includes installation and materials such as roof mounts & inverters. There is a grant of up to €1,800 available for installing solar panels on your home. Solar panels take an average of 6-7 years to pay for themselves. How much does a solar PV system cost in Ireland?

A solar PV system costs between €4,600 – €8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

Are polycrystalline solar panels a good choice in Ireland?

For Irish homeowners looking for a cost-effective and durable solar option, polycrystalline panels offer a good mix of affordability and performance. These blue-toned panels, made from multiple silicon crystals, work well in Ireland's often unpredictable weather.

How much does a commercial solar panel installation cost in Ireland?

The cost of commercial PV panel installations depends on the size and complexity of the project. The price per watt may decrease for larger systems due to economies of scale. Commercial solar PV installations in Ireland cost between €15,000 and €200,000 or more, depending on the project's size and requirements.

Are monocrystalline solar panels a good choice?

Monocrystalline solar panels are a high-end choice, recognized for their sleek black appearance and single-crystal construction. With efficiency ratings exceeding 20%, they perform reliably in Ireland's unpredictable weather. A typical 4.35 kWp system costs €6,163 after grants and produces around 3,782 kWh of electricity annually.

What type of solar panels are available in Ireland?

Panel Type and Quality: Solar panels vary in efficiency and durability. In Ireland, photovoltaic (PV) panels are the most popular choice, with options like monocrystalline panels offering higher efficiency and a longer lifespan. These may cost a bit more initially but can deliver better long-term savings.

How much do bifacial solar panels cost in Ireland?

Bifacial solar panels are changing the game for Irish homeowners by generating power from both sides of the panel. They capture not only direct sunlight but also reflected light, making them a great fit for Ireland's often cloudy weather. A typical 4 kW bifacial system in Ireland costs between €8,000 and €12,000, including installation .
