

Proportion of new energy storage BESS in Mozambique

Overview

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

Is Mozambique a solution to a structural energy deficit?

The most recent request came from South Africa, when its minister of energy visited Maputo and met with his Mozambican counterpart, Ernesto Tonela, the paper said. "There is nearly a structural energy deficit in the region and the partners look to Mozambique as one of the solutions in the supply of the resource," Noticias quoted Tonela as saying.

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Proportion of new energy storage BESS in Mozambique
