

# **Purchasing photovoltaic solar panels**

## Overview

---

Where can I buy solar equipment?

Like wholesale resellers, Amazon is another way to purchase solar equipment directly. Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.).

Where can I buy solar panels?

Generally speaking, you can buy solar panels in a number of different places. This, of course, depends on the exact system you're interested in. Certain systems can only be bought through registered dealers, while others can be purchased directly from the manufacturer, at hardware stores, through feed stores, or even online.

Can you buy solar panels yourself?

While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer. Design a custom solar system and compare quotes online. The back way into buying solar panels is buying a house that already has solar panels installed.

Should you buy solar panels in 2024?

When buying solar panels, there are several options you can choose from in 2024. There is no one-size-fits-all for solar. This is because every installation is different, and every homeowner's goal for their solar system varies. Today, I'll review the five most common ways people buy solar panels, along with the best-rated equipment.

Should I buy a solar panel system from a large company?

One popular option for installing a residential solar panel system today is contracting through a large solar company, such as SunRun. There are certain

advantages to buying a solar panel system from a large solar company.

Where can I buy a solar panel kit?

Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.). Most solar panel kits are best suited for smaller applications, such as an RV or boat instead of a home.
