Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.

What is the best portable power station for off-site work?

Best portable power station for on-site work With a 1070Wh, 1500W output, and UPS, during our testing this unit proved ideal for when you need a reliable and pretty powerful unit for off-site work. And this redesigned version is a lot more portable, too. [Read more below](#) 5. Anker Solix F3800 Best portable power station for RVs and home back-up.

What is the best portable power station for water resistance?

Best portable power station for water resistance It might not be a true rugged power station, but the Bluetti AC240P boasts IP65 rating to protect it against water and dust ingress. Key specs are 1843Wh capacity and a 2400W output.

Which power station should I buy?

The Jackery 2000 Plus is the best power station for those who need ample power. While it is pricey at over \$2,000 list price, it has plenty of power, charges impressively fast, and won't let you down in case of an emergency. If your main need is charging devices like phones and laptops, our favorite is the Anker 521.
