

# **Romania Photovoltaic Energy Storage System Project**

## Overview

---

Does Romania have a battery energy storage plan?

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country's northwest has flipped the switch.

How many largescale photovoltaic projects are there in Romania?

Here are some considerations based on this research. Romania has made significant strides in developing large-scale photovoltaic (PV) projects, contributing to its renewable energy goals. As of the latest data available, there are over 880 large-scale PV projects in Romania, boasting a cumulative capacity of approximately 46,600 MW.

What is the landscape of largescale PV projects in Romania?

The landscape of large-scale PV projects in Romania encompasses a wide range of installed capacities, catering to diverse energy needs and project objectives. By categorizing these projects based on their installed capacity, we gain insights into the scale and scope of solar energy deployment in the country.

How to develop a solar plant project in Romania?

The first step in developing a solar plant project in Romania is to secure a title over the land. The most common title, besides the ownership title, which gives right to build and own the respective infrastructure for a solar plant project, is the superficies right.

Does Romania have a solar PV market?

Our sister site PV Tech has covered Romania's solar PV market extensively. The Ministry also announced a €199 million call to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, also funded through the

NRRP, with €149.25 million for new battery production, assembly and recycling facilities.

What is the monitor of Romanian photovoltaic projects?

The Monitor of Romanian Photovoltaic Projects is a tool offering thorough summaries of large- scale PV projects happening all over the country. However, there are some issues that need to be carefully thought through because they could have an effect on many different groups of people.
