

Romanian wind power energy storage system manufacturer

Overview

Monsson Group is due to get regulatory approval for a hybrid power plant project consisting of a wind farm, photovoltaic unit and the largest battery energy storage system in Romania. Will monsson build a wind power plant in Romania?

Monsson planned to commission the facility in Constanța county, Romania's wind energy hub, last year. Head of Mergers and Acquisitions Sebastian Enache has said that the developer intends to include the largest battery system in the country, with 30 MW in operating power and a four-hour duration, translating to 120 MWh.

What is the largest battery system in Romania?

Head of Mergers and Acquisitions Sebastian Enache has said that the developer intends to include the largest battery system in the country, with 30 MW in operating power and a four-hour duration, translating to 120 MWh. The investment is set to include the largest battery system in Romania.

What is monsson group doing in Romania?

Monsson Group is developing a hybrid wind-solar-storage project with the largest battery energy storage system in Romania.
