

Saint Lucia Telecom Base Station Battery Thief Catching

Overview

Can battery theft cause a cell service outage?

While not as widespread a problem as copper theft, battery theft can easily become the root cause of cell services outage. Similarly to the case of cable theft, telecom towers are increasingly affected by the rise of battery theft and vandalism.

Are cellular base stations a problem?

Less common, but still a concern are more coordinated efforts to damage the ability of the telecom network to operate by damaging the sites themselves. As cell towers are often located in remote locations, cellular base stations are prime marks for thieves and vandals in search of an easy target.

Are telecom towers affected by battery theft & vandalism?

Similarly to the case of cable theft, telecom towers are increasingly affected by the rise of battery theft and vandalism. According to NorthStar Battery, 10% of battery failings in the tower industry is caused by theft and vandalism. Diesel fuel is a major asset at telecom sites that can easily and directly be sold by thieves.

What is National Telecommunications Regulatory Commission St Lucia?

“Ensuring Standards Through Regulation.” Welcome To National Telecommunications Regulatory Commission St. Lucia. The Commission was established under the Telecommunications Act of 2000. It comprises not less than three (3) and not more than five (5) Commissioners, who are appointed by the Minister with responsibility for Telecommunications.

Did strong cladding prevent thieves from stealing batteries?

Fortunately, the strong cladding in which the batteries were encased had prevented the thieves from stealing them. Steel and concrete structure holding batteries in a secondary steel vault. Battery vault ripped open by

thieves. Backup batteries encased in strong cladding material.
