

Seychelles New Energy Charging Station Energy

Overview

The power station was commissioned in 2015 with an installed generation capacity of 58 MW. In October 2023, a 33kV underground transmission network project funded with \$30.9 million by the and was commissioned. It involved setting up the network, starting from the power station and extending along the east coast of Mahé, from Providence to Turtle Bay. It also extends to Anse Boileau thr.

LiFePO ₄ Battery,safety
Wide temperature: -20~55℃
Modular design, easy to expand
The heating function is optional
Intelligent BMS
Cycle Life:≥ 6000
Warranty:10 years
