

Singapore replaces telecom site battery cabinet

Overview

Will Singapore replace diesel generators with lithium-ion batteries?

SINGAPORE, November 3, 2021 – Hong Kong start-up Ampd Energy said five construction sites in Singapore will be replacing diesel-powered generators with its advanced, lithium-ion battery as developers and contractors in the Republic seek to dramatically cut noise and pollution from building activities.

Does a modular battery cabinet protect a battery?

An essential element of any Modular Battery Cabinet or Racks is of course how well it can protect a battery. With Synerflux's innovatively designed cabinets and racks, you are guaranteed top quality Battery Protection.

Why should you choose synerflux modular battery cabinets & cabinets?

Our Racks and Cabinets also have battery hot-swapping functions with string protection and individual string disconnection so that you can easily, quickly and safely remove battery units to swap for new ones. Synerflux Modular Battery Cabinets and Racks are also specially treated to reduce the risk of electric shock and short circuit fires.

Why is Ampd Energy launching a lithium-ion battery business in Singapore?

It also eliminates air pollutants equivalent to removing 200 to 400 cars from the road and minimises fire hazards from diesel generators. Ampd Energy said its mission is to make the global construction industry emission-free and the falling price of lithium-ion batteries have made it possible. Singapore is its second market after Hong Kong.
