

Solar PV panel prices in South Africa

Overview

On average, solar panel installation costs between R70,000 for a modest home to R350,000 for a larger home. These figures encompass the expenses related to equipment, labor, and other installation costs. How much does a solar panel cost in South Africa?

The cost for a small residential solar PV system starts at R70,000, while larger home installations can reach up to R350,000. Additionally, there are backup power systems available from R40,000 that are compatible with future solar panel integration. Let's get to the bottom of the price of a solar panel in South Africa!.

Can I buy solar panels online at Makro South Africa?

Please note that many of the solar panel prices at Makro South Africa above are marked as "Online Exclusive" (meaning they can only be purchased online) and prices may change without notice.

How much battery does a solar panel need in South Africa?

Battery Size: A 6-8 kWh battery should suffice for daily usage and backup. These PV panel quantities are adjusted for South Africa's sunny climate but are still estimates. The actual number may vary based on site-specific conditions and energy usage patterns. Regular maintenance and evaluations can enhance your solar system's performance.

How much do solar panels cost?

Solar panels are typically categorized by their power output, measured in watts. The cost of individual panels can vary significantly based on their wattage. For instance, smaller panels with a capacity of around 300W are available, with prices starting from R3,000 per panel, offering an accessible entry point for those new to solar power .

Do South Africans need a solar power system?

For South Africans considering a full solar power system, the financial commitment extends beyond the purchase of individual panels. A comprehensive solar system typically includes solar panels, an inverter, batteries for energy storage, mounting equipment, and installation services.

Does South Africa offer rebates on solar panels?

Government Incentives and Rebates: In South Africa, the National Treasury's rebate program for residential solar PV systems offers a 25% rebate on solar panel costs, up to ZAR 15,000. Eligibility includes having a VAT invoice and compliance with the 2009 Electrical Installation Regulations.
