

# **Solar automatic storage box**

## Overview

---

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What is the Solarbox and how does it work?

The Solarbox is a new municipal waste collection system that operates by compaction. It functions autonomously without the need for electrical power, thanks to the installation of a battery system and solar panels on the top of the equipment.

What is a smart solar box?

The Smart Solar Box was discovered by accident (like every other product on ClickBank) during an emergency. What's under the hood is an array of folding solar panels, hooked up to a charge controller which then charges new or used car batteries. You can then use this system to power some of your lights or appliances.

What is a Smartbox energy management device?

The EVERVOLT® SmartBox energy management device connects the battery, home loads, grid power and solar PV system all in one place. SmartBox controls the connection to the grid and provides a seamless transition to backup power during power outages.

Where can I buy a battery box?

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types. EcoDirect.com sells Battery Boxes Racks and

Enclosures at the lowest cost. Order Online or Call Us! 888-899-3509.

What is Smartbox & how does it work?

SmartBox controls the connection to the grid and provides a seamless transition to backup power during power outages. SmartBox also provides control of up to six loads to optimize your energy consumption<sup>1</sup> and prolong battery life. Smart circuits, transfer switch, backup connection all in one box.

- Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 100% Peak Output Power
  - 2 MPPT Trackers, 100% DC Input Utilization
  - Max. PV Input Current 55A, Compatible with High-Power Modules
- Intelligent Simple O&M**
  - IP65 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
  - Plug & Play, EPC Switching Under 10min
  - Compatible with Lead-acid and Lithium Batteries
  - Max. 6 Units Inverters Parallel
  - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation
