

# **Solar backup power supply for Croatian communication base stations**

## Overview

---

The power generated by solar energy is used by the DC load of the base station computer room, and the insufficient power is supplemented by energy storage devices. Install solar panels outdoors and add equipment such as MPPT solar controllers in the computer room.

## Solar backup power supply for Croatian communication base station

---

### solar power for Base station

Solar panels generate electricity under sunlight, and through charge controllers and inverters, they supply power to the equipment of communication base stations, with ...
