

Solar photovoltaic panels with solar panel grid

Overview

In a grid connected PV system, also known as a “grid-tied”, or “on-grid” solar system, the PV solar panels or array are electrically connected or “tied” to the local mains electricity grid which feeds electrical energy back into the grid.

Solar photovoltaic panels with solar panel grid

Solar Photovoltaic (PV) Systems

Grid-connected solar PV systems The main application of solar PV in Singapore is grid-connected, as Singapore's main island is well covered by the national power grid. Most solar ...
