Overview

What is a Solis 100kW 3 phase inverter?

The Solis 100kW Three Phase Inverter is engineered for high-performance commercial and industrial solar energy systems. This inverter boasts ten Maximum Power Point Trackers (MPPTs), ensuring maximum energy harvest and efficiency.

How many strings can a CPS flexom inverter handle?

The Standard Wire-box includes touch safe fusing for up to 20 strings. The CPS FlexOM Gateway enables communication, controls and remote product upgrades. The 100kW high power CPS three phase string inverters are designed for ground mount applications with 480Vac service voltage.

Are CSI inverters a good choice?

CSI inverters are easy to configure and have a high conversion efficiency of 98.5% to provide high yield and significant BoS savings. With a wide operating range of 200-1000 Vdc and 6 or 9 MPPTs, they are the ideal choice for maximum energy harvesting. For detail information, please refer to Installation Manual.
