

Tonga 100kw off-grid inverter company

Overview

What is a 100 kW solar power inverter?

This solar power inverter with low frequency 50Hz/ 60Hz, 100kW high power output rating, no battery storage system, transforms 480V DC to 400V/ 460V AC (input and output voltage are customizable), high efficiency and stable performance. 100 kW off grid pv inverter is widely used in CNC machine, emergency car and compressor.

What is off grid PV inverter?

Off grid pv inverter is designed to withstand a variety of environmental conditions and provide reliable performance over time. Two kinds of start modes: Step-down voltage start and variable frequency start. Customers can set start mode according to the type of their load. The output voltage can be set between -40 % to +20 % of the rated voltage.

What does an inverter do in an off-grid power system?

In an off-grid power system, the inverter plays a crucial role in converting the DC (Direct Current) power stored in batteries or generated by renewable energy sources into usable AC (Alternating Current) power for running electrical devices and appliances.

What is the warranty on a 100kW inverter?

2 Year Manufacturer's Warranty! UL 1741 and CSA 22.2 Approved! Call for pricing above 2 each at (801) 566-5678. Volume discounts for 100kW off grid inverter pure sine wave.
