

UAE high quality lithium battery bms

Overview

What is a lithium battery management system (BMS)?

Many people are familiar with a Battery Management System (BMS), which should be installed with every lithium battery. A BMS monitors the voltages of the individual lithium cells inside a battery and has the ability to shut everything down in an emergency. A BBMS, on the other hand regulates the charging of the lithium batteries.

Who is Daly BMS?

DALY BMS specializes in the manufacturing, distribution, design, research, and servicing of cutting-edge Lithium Battery Management Systems (BMS).

What chemistries does Daly BMS support?

Daly BMS supports various battery chemistries, including LiFePO₄, Li-ion (NMC), LTO, and Lead-Acid. What are the available voltage and current ratings?

Daly BMS is available in a wide range of configurations, typically from 3S to 32S (series) and 5A to 500A.
