

# UK liquid-cooled energy storage services

**5 Years  
warranty**

## Overview

---

Where is Highview Power storing liquid air energy?

A render of Highview's liquid air energy storage facility near Manchester.  
Image: Highview Power. Liquid air energy storage firm Highview Power has raised £300 million (US\$384 million) from the UK Infrastructure Bank (UKIB) and utility Centrica to immediately start building its first large-scale project.

What is the cost of energy storage in the UK?

It is expected to have a levelized cost of storage of GBP 114 (\$143.10)/MWh. The UK Department for Business, Energy and Industrial Strategy (BEIS) recently granted GBP 350,000 to a consortium featuring the Birmingham Centre for Energy Storage (BCES), Aggregate Industries, and Innovatium, a developer of liquid air energy storage (LAES) systems.

What is Envision Energy Storage System?

Envision is committed to the R&D of key technologies such as BMS, PCS, EMS & SCADA, and energy storage system integration technology, thus providing smart energy storage system solutions for its partners. The BESS will include AESC's energy storage cells with superior performance in terms of energy density, cycle life, and safety.

## UK liquid-cooled energy storage services
