

Ultra-wide lithium battery pack

Overview

What are Ultralife battery packs?

Embeddable and hot-swappable battery packs Housed in a tough plastic case, ULTRALIFE's rechargeable Lithium-ion (Li-ion) Hard Packs are ideal for devices that require a hard-wearing power solution. Cases can be custom branded (volume dependent) for resellers or to match the device design.

What are Ultralife rechargeable lithium ion hard packs?

Housed in a tough plastic case, ULTRALIFE's rechargeable Lithium-ion (Li-ion) Hard Packs are ideal for devices that require a hard-wearing power solution. Cases can be custom branded (volume dependent) for resellers or to match the device design. Battery voltages range from 3.7 to 28.8V, with energy ratings from 4.2 to 92.2Wh.

Are Ultralife batteries rechargeable?

ULTRALIFE's rechargeable battery packs utilize world-leading chemistries to serve a diverse range of power requirements. The majority of packs contain Lithium-ion chemistry, including the specialized UBI-2590 military and industrial range, as well as the Land Warrior series that was designed in conjunction with the US army.

What types of lithium batteries are available?

Choose from our comprehensive range of custom lithium battery technologies: ultra-thin 7.4V LiPo cells for wearables, high-capacity 48V 18650 packs for power tools, or robust 72V LiFePO4 systems for electric vehicles. Each battery type is engineered for specific applications with optimized performance characteristics.

Are Ultralife batteries suitable for underwater applications?

For underwater applications (like AUVs, ROVs or oil and gas), ULTRALIFE offer smart subsea Lithium-ion Polymer battery modules (24V, 30V and 37V

versions). Available as direct-in-water or pressure balanced oil-filled versions, they offer 4X longer run-time endurance compared to Sealed Lead Acid. Pressure tolerant tested to 6,000m ocean depth.

What is Ultralife lithium ion?

For more standardized power, ULTRALIFE manufactures Lithium-ion Hard Packs and Soft Packs that are available in various voltages and have an energy rating under 100Wh (simplifying shipping). In addition to Lithium-ion, ULTRALIFE was one of the first companies to introduce batteries containing Lithium Iron Phosphate chemistry.
