

# **Vietnam Communications latest 5G base station**

## Overview

---

Where will 5G start in Vietnam?

According to a NikkeiAsia report, the 5G coverage in the country will start from Hanoi, the capital of Vietnam and Ho Chi Minh City, in addition to other urban areas. The top three telecom operators in Vietnam, namely military-owned Viettel, MobiFone, and Vinaphone, have been conducting 5G trials in 16 different cities and provinces of the country.

Which telecom companies are launching 5G in Vietnam?

The top three telecom operators in Vietnam, namely military-owned Viettel, MobiFone, and Vinaphone, have been conducting 5G trials in 16 different cities and provinces of the country. The 5G services will launch in major cities in addition to the high-demand areas such as industrial parks.

What is 5G & how will it impact Vietnam?

5G enables new services like Network Slicing and AI. (Illustrative images created by AI) A study by Ericsson estimated that 5G will account for approximately 50% of mobile subscriptions in Vietnam by 2029. Currently, more than 25% of the country's data traffic is transmitted via 5G.

Does Viettel have 5G?

The company launched its 5G services on October 15, 2024, covering central areas in all 63 provinces and cities. By 2025, Viettel plans to expand its network by deploying approximately 20,000 new base stations, raising its 5G infrastructure to 50% of its 4G network.

Is 5G faster than 4G in Vietnam?

In Vietnam, some 5G tests have demonstrated download speeds of 1 Gbps—ten times faster than 4G in the same locations. Beyond speed, 5G offers ultra-low latency and the capacity to support a vast number of connected devices.

How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution – ONE Farm. (Photo: VNA)
