

What are the EMS cabinets for German communication base stations

Overview

Why do emergency services use the same radio system in Germany?

This clears the radio channel of lengthy calls. Theoretically, no additional radio traffic is required when using such a system. All public emergency services in Germany (i.e. EMS, fire, police, disaster response) use the same radio system for communication. Thus, they can connect to each other with their radio equipment.

How does EMS work in Germany?

As in many other places, in Germany, the EMS system performs two major functions: Emergency services – Responding to all calls concerning immediate danger to the life and/or health of a person. This is the core component of the service, which is called Notfallrettung or Rettungsdienst in German.

How many base stations are needed in Germany?

To cover whole Germany about 4500 base stations are needed. As of August 2015 already 4338 of them are installed and 4323 working, thus about 97% of Germany is covered. Migration to the new radio standard is ongoing step by step, parallel use of the analog system is planned until around 2020.

How are EMS vehicles dispatched in Germany?

There are two different strategies used in dispatching EMS vehicles in Germany; the Rendezvous system and the Station system. In this model, the emergency ambulance (RTW) and Doctor's car (NEF) are not necessarily co-located. In most emergencies, only the ambulance is deployed for providing patient care and transport.

What are the different EMS qualifications in Germany?

There are different specified qualifications in German EMS: the EMT level (Rettungssanitäter), the Paramedic level (Rettungsassistent, Notfallsanitäter) and the emergency physician (Notarzt).

What is emergency medical service in Germany?

Emergency Medical Service (German: "Rettungsdienst", lit. "Rescue Service") in Germany is a service of public pre-hospital emergency healthcare, including ambulance service, provided by individual German cities and counties. It is primarily financed by the German public health insurance system.
