

What outdoor power supply is best for traveling to Slovenia

DISTRIBUTED PV GENERATION + ESS

Overview

Do I need a power adapter in Slovenia?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Slovenia, you will need a power adapter and/or a voltage converter/transformer.

What types of plugs are allowed in Slovenia?

Slovenia has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Typically, type C plug sockets are not allowed to be installed in Slovenia: these outlets are not earthed and are therefore considered dangerous.

What voltage does Slovenia use?

Also, the voltage in Slovenia is the same as in Europe. What Outlet does Slovenia Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin. These plugs are typically used with devices that have a voltage of 220-240V. This outlet is rated for 2.5 amps.

Do Europeans need a travel adapter in Slovenia?

Yes! Europeans do not need a travel adapter or transformer when traveling to Slovenia. Most device plugs will work with the outlet types in Slovenia. Also, the voltage in Slovenia is the same as in Europe. What Outlet does Slovenia Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

Where can I find travel adapters in Slovenia?

Find travel adapters on Amazon. What Voltage and Frequency Are Used in Slovenia?

In Slovenia, the standard voltage is 230 V and the frequency of electricity is 50 Hz. If you're traveling from another country and your electronic device isn't compatible with Slovenia voltage, it may not work properly.

Where can I buy a voltage converter in Slovenia?

You can find voltage converters on Amazon, or at your local electronics store. If you would like to bring your laptop, tablet, camera, or other electronic devices with you to Slovenia, it's important to check their voltage and frequency before traveling.
