

# **Which is the best energy storage cabinet for industrial and commercial use in Australia**

## Overview

---

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

What is a battery energy storage system?

Our Battery Energy Storage System (BESS) units range up to 500kW. Acting as a standalone replacement for diesel generators or packaged as part of our hybrid power offering. Our ESS units provide cleaner power, quieter operation & less hassles than conventional diesel generators.

What is a battery energy storage system (BESS)?

Power your construction or mine site with minimal carbon footprint, zero on-site air pollution and a dB rating up to 30x lower than fossil fuel generators. Our Battery Energy Storage System (BESS) units range up to 500kW. Acting as a standalone replacement for diesel generators or packaged as part of our hybrid power offering.

Why should you choose Powerplus cabinets?

There are enclosures to suit outdoor or indoor installations. Strong steel cabinets with a high quality powder coating finish promote durability and security whilst being well-suited to protected environments like garages, sheds and other enclosed spaces. Like to choose Australian made?

Rely on PowerPlus cabinets to protect your next system.

Why should you choose a rack cabinet?

Suitable for protected environments, our Rack cabinets make the most of the available floor space. From smaller residential systems to large industrial

applications, they can easily scale for your energy storage needs. Suitable for outdoor or indoor projects, our Slimline Range has a compact footprint ideal for smaller spaces.

What is a battery energy adjustable rack?

The Battery Energy adjustable rack will house most of our product range and can be supplied with battery isolation if required. Battery Energy outdoor lockable enclosures help keep your investment secure in a thermally managed environment.
