

Which outdoor power supply is good

Overview

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. [↓ Jump to the Rest of the Field](#) [↓ What to Know Before Purchasing a Portable Power Station.](#)

Do portable power stations need a wall outlet?

Portable power stations typically come equipped with lithium-ion batteries that hold a significant amount of stored electrical energy. Most power stations plug directly into a standard electrical outlet, but many models don't require access to a wall outlet.

Which power station should I buy?

If what you want is to store the most juice possible in a single power station, this is your best bet. The Anker SOLIX C300 is a reliable power station for your small electronics. 300W of output will charge your phones and laptop with ease, and 288Wh should keep you going all weekend.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Do you need a portable power station for a camping trip?

If you're planning for a camping trip but don't want to completely rough it, then a portable power station can help. The DJI Power 1000 stores 1,024 watt-hours of electricity and produces 2,600 running watts and up to 4,400 surge watts.
