

# **Which photovoltaic inverter should I choose**

## Overview

---

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

How do I choose the right solar inverter?

To find the right solar inverter or inverters for your installation, you must consider several specific features of your property, including your energy demand, roof complexity, and whether shading will affect your system's performance. Learn more about solar and shade.

Do I need a solar inverter?

Solar inverters are the operational brain of photovoltaic (PV) systems, making them one of the most important components of a solar system. Since solar panels generate power in DC, which is not useful for most home appliances, you will generally need a solar inverter.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

How to choose a hybrid solar inverter?

A hybrid inverter can manage power from solar panels, batteries, and the grid. It provides flexibility and ensures continuous power supply. Choosing the right solar inverter is vital for your energy needs. Understand the types available. Match them with your specific requirements. Consider factors like efficiency

and cost.

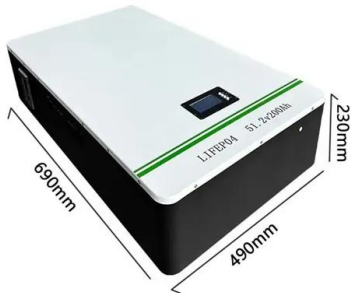

Why are solar inverters important?

When people think about a solar energy system, solar panels are usually one of the first things that come to mind. While solar panels are undeniably important, solar inverters are an equally crucial system component—especially when it comes to creating sustainable energy solutions in homes and buildings around the world.
