

Which photovoltaic solar energy company is best in the Bahamas

Overview

Why should you choose green solar energy in the Bahamas?

Why choose green solar energy in the Bahamas?

A reliable, safe and clean form of energy. With power costs at approximately \$0.42/kwh and worldwide fuel costs constantly increasing, solar is an efficient and environmentally responsible alternative to mains power.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What are the different types of solar products?

We specialize in the following solar products: hot water , pool pumps , pool heating and photovoltaic. Bahamas Electricity Corporation (BEC) is the main power utility in the Bahamas. It is a Government owned company and services the majority of inhabited islands within the Bahamas.

What are the benefits of solar power?

A reliable, safe and clean form of energy. With power costs at approximately \$0.42/kwh and worldwide fuel costs constantly increasing, solar is an efficient and environmentally responsible alternative to mains power. The use of diesel generators to provide powers pollutes our environment providing harmful emissions and the likelihood of spillage.
